SECTION VI SCHEDULE OF REQUIREMENTS

ITB No. 019-2023

The delivery schedule expressed as weeks/months stipulates hereafter a delivery date which is the date of delivery to the project site.

ITEM NO.	DESCRIPTION	QTY	TOTAL	Delivered, Weeks/Months
US23-01	FLOOR MOUNTED DIGITAL X-RAY MACHINE High Voltage Generator 1. Maximum Output Power: 30 kW or better 2. Maximum Exposure Voltage: 120 kV or better 3. Maximum mA: 400 mA or better 4. Power requirements: 220V Three-Phase with Isolation transformer if necessary X-ray Tube Assembly 5. Dual Focal Spot 6. Rotating Anode Floor Mounted Tube Stand with Patient Table 7. Four-way table Digital Detector 8. Detector type: Amorphous Silicon TFT / Cesium Iodide scintillator (CsI) 9. Auto detect location of detector 10. Detector Size: 14 x 17 inches 11. Connection: Wireless with 2 extra battery 12. Image Acquisition time: at least 3 sec. 13. Dust and water resistant Vertical Bucky Stand 14. Grid compatible to the detector 15. Auto sync/tracking feature between tube	1	11,000,000.00	90 calendar days
	Patient Table 16. 6 way floating table 17. Auto tracking: Longitudinal tracking of detector with longitudinal travel and rotation of tube.			

ITEM NO.	DESCRIPTION	QTY	TOTAL	Delivered, Weeks/Months
	Clinical Applications 18. With DAP meter for patient radiation exposure Data transfer 19. DICOM 3.0 compliant 20. Support digital data transfer via a DICOM network for both printing & storage.			
	21. Shall be capable of sending DICOM images to our PACS/RIS server22. The system shall have a Open Modality Worklist Function to be connected to our existing PAC/RIS.			
	Standard Accessories 23. Three (3) Full body Lead apron 24. Two (2) thyroid shields 25. One (1) upright gonad shield 26. One (1) upright gonad shield 27. Two (2) movable lead barriers 28. QA Phantom a. Collimation and beam alignment test			
	 b. Spatial Resolution test c. Contrast Resolution test d. Uniformity test Inclusions 29. Four (4) workstations with at least;			
	 a) Processor: at least Intel Core i7 (11th gen) b) Memory: 8 GB RAM c) Hard Disk: 1 TB HDD d) Operating System: Windows 10 OS and license Microsoft Office e) Video cards compatible to the existing PACS/RIS. 			
	 30. Each workstation will be supplied with keyboard, mouse, Dual monitor (24" and 17") LED HD monitors, UPS and AVR 31. 3 pieces 4-Seater Gang Chair 32. 4 units of air purifier with H13 filter for a 40 sqm room 33. 10 extra H13 filters 			
	34. One (1) UV sterilizer for a 40 sqm room 35. One (1) All-in-one Heavy-duty printer with 10 extra inks 36. One (1) 3 tonner tower type Aircon (inverter type)			

37. Two (2) window type inverter Aircon (2.5 HP) 38. Lead glass (14x14) 39. Lead Shielding to the examination room if needed 40. AVR for Digital Xray machine 41. One (1) Mobile X-ray table with bucky 42. One (1) Mobile Cassette Holder (14 x 17) 43. With civil and electrical works needed for the X-ray examination room Warranty 44. With three (3) years warranty for parts and services with free quarterly preventive maintenance after end user acceptance. Warranty shall commence upon the acceptance of the end user. The winning bidder shall issue a certificate reflecting the duration of warranty period. 45. Bidder's certificate guaranteeing the availability on the supply of spare parts ten (10) years from end of production. A certification must be issued by the manufacturer for the bidder. 46. With quarterly preventive maintenance and calibration 47. Certification in case that the equipment will be for repair or maintenance within the warranty period, it should be done on-site. Standard Requirements 48. The supplier shall secure a certificate from the manufacturer stating that the equipment is brand new, unused and not a discontinued model or was listed in the market recall. The certificate reflect the brand, model, serial number of the machine, and the date and place it was manufactured. 49. System must not be a retrofit solution 50. The bidder must provide the current and valid certificate of Manufacturer's compliance with ISO 13485. 51. Delivery of equipment and all accessories within 90 calendar days upon receipt of	ITEM NO.	DESCRIPTION	QTY	TOTAL	Delivered, Weeks/Months
38. Lead glass (14x14) 39. Lead Shielding to the examination room if needed 40. AVR for Digital Xray machine 41. One (1) Mobile X-ray table with bucky 42. One (1) Mobile Cassette Holder (14 x 17) 43. With civil and electrical works needed for the X-ray examination room Warranty 44. With three (3) years warranty for parts and services with free quarterly preventive maintenance after end user acceptance. Warranty shall commence upon the acceptance of the end user. The winning bidder shall issue a certificate reflecting the duration of warranty period. 45. Bidder's certificate guaranteeing the availability on the supply of spare parts ten (10) years from end of production. A certification must be issued by the manufacturer for the bidder. 46. With quarterly preventive maintenance and calibration 47. Certification in case that the equipment will be for repair or maintenance within the warranty period, it should be done on-site. Standard Requirements 48. The supplier shall secure a certificate from the manufacturer stating that the equipment is brand new, unused and not a discontinued model or was listed in the market recall. The certificate reflect the brand, model, serial number of the machine, and the date and place it was manufactured. 49. System must not be a retrofit solution 50. The bidder must provide the current and valid certificate of Manufacturer's compliance with ISO 13485. 51. Delivery of equipment and all accessories					
39. Lead Shielding to the examination room if needed 40. AVR for Digital Xray machine 41. One (1) Mobile X-ray table with bucky 42. One (1) Mobile Cassette Holder (14 x 17) 43. With civil and electrical works needed for the X-ray examination room Warranty 44. With three (3) years warranty for parts and services with free quarterly preventive maintenance after end user acceptance. Warranty shall commence upon the acceptance of the end user. The winning bidder shall issue a certificate reflecting the duration of warranty period. 45. Bidder's certificate guaranteeing the availability on the supply of spare parts ten (10) years from end of production. A certification must be issued by the manufacturer for the bidder. 46. With quarterly preventive maintenance and calibration 47. Certification in case that the equipment will be for repair or maintenance within the warranty period, it should be done on-site. Standard Requirements 48. The supplier shall secure a certificate from the manufacturer stating that the equipment is brand new, unused and not a discontinued model or was listed in the market recall.
